

Lord of Hosts

#14

LORD OF HOSTS is the Miller Number Custodial zine. It carries assignments of Miller Numbers, variant game statistics, and material related to the Miller Numbers and the variant Diplomacy hobby in general. Copies will be mailed gratis to all people whom I know to be GMing variant games or to have variant openings; other persons may receive copies by sending me a stamped, addressed envelope. People who start and run variant games are urgently requested to send me copies of their zines, so I can compile variant statistics if the zine folds, or pass on copies to the Variant Orphan Rescue Service (i.e., Ray Heuer). I'm willing to trade URF DUFAL for any zine running variant games or having openings in variant games. Those who do not wish to trade are urgently requested to send me the names of players, GM, zine, and variant at game start; and a complete supply-center breakdown by year (not by individual supply center, of course), as well as player records (i.e., who dropped out when) for publication in LoH.

LORD OF HOSTS is published by the Costikyan Publishing Empire.

Material related to LoH or the Miller Numbers should be addressed to:
Greg Costikyan, PO Box 865, Brown University, Providence, RI, 02912.
401-863-6940.

STATEMENT OF POLICY

There are no plans at the moment to merge the Miller and Boardman numbers. Any attempt by a force outside the Miller Number staff to unilaterally merge the Miller Numbers with the Boardman Numbers will be met with resistance.

The power to subsidy is the power to control. Those who control the purse-strings, in effect, control the project. Consequently, the Miller Number Custodian will not accept per-game subsidies from the IDA/NA, Avalon-Hill, the so-called "Gamesmaster/Publisher Organisation" or any other individual, group, or corporate body. All expenses will be paid for out of the Miller Number Custodian's pocket. Contributions of money, freely given and in no way tied to the number of Miller Numbers assigned, will be accepted with graciousness, but are not solicited.

THE STAFF OF THE MILLER NUMBERS:

Custodian: Greg Costikyan
Vice Custodian: John Leader
Associate Custodian for Projects: Robert Sacks
Associate Custodian for Orphans: Ray Heuer
Provisional Associate Custodian for Europe and Orphans in Europe: Der Garvey

MILLER NUMBER DESIGNATORS ASSIGNED SINCE 1 JANUARY 1979

1z---3x3x3x3x3 Colonia III fixed length

(This will probably seem obscure to most people; it is, in fact, a 5-player game in which each player controls three different nations which are grouped together on the Colonia III game-map; the nations are not those used in regular Colonia III, nor are the rules the same as used in Colonia III. Lastly, the game is of a fixed length in game-years. Since the game is so very different from Colonia, I feel justified in assigning it a separate designator).

GAME ENDS & WRAP-UPS SINCE LAST ISSUE

(If any of you know of any variant games which ended this year or last which were NOT reported in LoH (only 76Mih was reported last issue), PLEASE inform me immediately).

ROD WALKER has produced a booklet containing complete maps and rules for every Youngstown variant and version ever designed and published. The booklet is a steep \$3, but for that price you get something like ten variants. It's well worth-while for anyone who's interested in variants.
